Commercial or Charter Boats

12 Months Parts & Labor

Barr Marine expressly warrants that its engine is of good quality and free from defects in materials or workmanship. Purchaser acknowledges that Barr Marine has made no affirmation of fact or promise relating to its engines outside this Limited Warranty and Barr Marine has provided the purchaser no description, sample or model of its engine upon which the purchaser has relied in deciding to purchase a Barr Marine engine. Barr Marine will, at its sole discretion, replace defective parts or a complete engine. All repairs will be made at the seller's or distributors cost, plus applicable labor pursuant to the Labor Policy set forth below. PRIOR AUTHORIZATION IS REQUIRED FROM BARR MARINE BEFORE WARRANTY WORK IS BEGUN. Call Barr Marine at (866) 255-9265 for a numbered authorization. It is the sole responsibility of the ultimate purchaser/ owner to pay for such work and submit the alleged defective parts, written repair order showing all charges, and a written receipt for payment of all charges to Barr Marine for review and determination by Barr Marine that the engine failure is or is not covered by this Limited Warranty. Repairs or replacements do not extend this Limited Warranty.

### **Transferable**

This Limited Warranty is transferable and is not limited to the ultimate purchase/owner at the time of the sale.

### **Labor Policy**

Barr Marine will pay labor claims only to repair facilities it has authorized. Barr Marine will not be liable for or pay any labor claims on Barr Marine engines installed by a third party who is not a certified marine mechanic (Marine Certificate or equivalent). All labor expense for field repairs, removal or reinstallation shall be limited to that expense and to those hours listed in the most recent Motors Flat Rate Manual, or equivalent manual pre- approved by Barr Marine, at the prevailing labor rate for the area but not to exceed \$40.00 per hour. In no event shall the total amount of labor cost exceed \$350.00 for all boats 20 foot or shorter, \$450.00 for cabin cruisers 21 foot or longer. A \$100.00 crane allowance will be allowed on cabin cruisers 21 feet or longer in addition to the limitation on labor costs.

### **OWNER OBLIGATIONS**

After 10 hours upon initial startup, ultimate purchase/owner shall assure that a certified licensed and qualified mechanic authorized by Barr Marine inspects your engine, which inspection should include, but is not limited to, adjustment of tappets (if applicable), adjustment of valves, timing and carburetor adjustments, tightening of gasket bolts (Barr Marine recommends retorquing gasket bolts regardless of gasket type), and a change of oil and oil filter. Carefully monitor oil levels for the first 100 hours as oil consumption may be higher during this period. Use good quality motor oil of the appropriate grade and viscosity as recommended by the original engine manufacturer. Barr Marine recommends against the use of synthetic oils or non-detergent oil, the use of which by the ultimate purchaser/owner shall void this Limited Warranty. Proper oil pressure and lubrication are mandatory for good engine break-in. All boats should be equipped with gauges or lights to indicate engine temperature and oil pressure. DO NOT OPERATE BOAT WITH ABNORMAL OIL PRESSURE OR WATER TEMPERATURE. After initial startup, avoid excessive RPM and keep boat on plane. Vary RPM range for first 3 to 5 hours running time. High engine RPM may damage your new engine through friction and high temperatures. Avoid long period of idling. Engine overheating and failure due to lack of lubrication can be prevented by adequate monitoring of all gauges or lights and should never in the absence of neglect by the purchaser result in engine damage.
